March 13, 2012

**Bi - National Standards**

In an effort to eliminate confusion over ratings for extinguishers listed with either a UL listing or a ULC (Canadian) listing, both agencies agreed to harmonize their test standards. All manufactures of fire extinguishers had to retest to the new standards, so UL and ULC were consistent and the one test program would result in a dual listing for the manufacturer. The chart below highlights our extinguishers that are affected by this change.

<u>MODEL</u>	<u>Description</u>	<u>Previous UL Listing</u>	<u>New UL Listing</u>
Cosmic 20E	20 # ABC	20A-120BC	10A-120BC
JL 495	50# ABC Wheeled Unit	30A-160BC	20A-160BC
