

NON-RATED ACCESS PANELS - PAD SERIES: PLASTIC ACCESS DOOR

The PAD door is corrosion resistant and made out of high impact plastic. The door is both hinged and removable for unobstructed access; it is held closed by friction snap latches. The door has a tapered frame that can easily be installed by press fit into an opening cut to size by applying caulking adhesive to the back of the frame and pressing into place. Ideal for wet applications and areas where easy access is needed.
