

# CATO

## DURABLE PLASTIC FIRE EXTINGUISHER CABINETS AND FIRE ALARM COVERS

Cato, the original manufacturer of the plastic extinguisher cabinet, has been offering quality products since 1984. We are excited to be able to offer this new group of products to our fire protection distributors. All Cato cabinets are made in the USA.

### Chief Series:

Cato's affordable fire extinguisher series provides a dent and rust proof alternative to metal.

Island Chief  
Listed & labeled MRI safe

Chief Pull to Open

Chief Semi Recessed

### Benefits of a Cato Fire Extinguisher Cabinet:

- We are the only U.S. manufacturer of plastic fire extinguisher cabinets
- We offer surface mount or recessed options that are able to accommodate most extinguishers models in 5, 10, and 20 lb. sizes
- Red tinted acrylic is available for better UV protection
- The Island Chief cabinet is constructed of all non-magnetic materials and is labeled MR safe as defined by ASTM F2503. This product is safe to use in a magnetic resonance imaging environment.
- We stock our most popular models of Cato Chief cabinets in many of our warehouses for quick delivery
- Lower shipping costs:
  - Plastic weighs significantly less than metal
  - Case quantities allow for space saving by nesting multiple cabinets

### Fire Alarm Covers:

Cato offers two styles of quality protective alarm covers that are manufactured in the U.S. Our Secured Alarm Cover comes with a security break glass front and break bar to resist vandalism. Our Pull to Open Alarm Cover allows users to gain access to inspect or operate the alarm quickly by simply pulling down on the cover. Both models are available for surface mount or recessed alarm applications. They arrive fully assembled with mounting hardware provided for quick installation.
