

FIRE EXTINGUISHER CABINET - ISLAND CHIEF

Cato's affordable plastic fire extinguisher cabinets are manufactured in USA and provide a dent and rust proof alternative to metal. Cato's Island Chief series cabinets are MRI safe and feature a clear PETG hand-pull panel to easily gain access to the extinguisher in case of fire. The cabinet can also be opened using the security hexagonal lock and key to remove the trim and pull panel cover.

SPECIFICATIONS:

Tub and Trim Material: Injection molded high impact polystyrene in .110 thickness with ultra-violet inhibitors for UV resistance

Tub and Trim Colors: Available in red or white

Cover Material: .030 PETG (polyethylene terephthalate glycol) panel with oval notch cut out to complete the pull panel design

Panel Colors: Available in clear only

Decals: UV resistant "FIRE" labels on exterior tub sides, "Tampering is a Felony" and MR Safe labels on pull panel

Hardware: ABS hexagonal lock and keys (2 included) are used to remove the trim and pull panel cover to open the cabinet

MRI Safety Information: MR Safe labeled, as defined in ASTM F2503. This product is safe to use in a magnetic resonance imaging environment. It is composed of materials that are electrically non-conductive, non-metallic and non-magnetic.

Sizes: Refer to table, listing model sizes with their compatible extinguishers from 2.5-20lbs. Including non-magnetic extinguisher models Nebula, Sentinel and Ansul CleanGuard Plus

Additional Options: Fire extinguisher rust prevention tray
