# GUARDSMAN™ SERIES:
## Ligature Resistant Fire Extinguisher Cabinet

JL Industries Guardsman Series fire extinguisher cabinets are specifically designed for behavioral health and other institutional occupancies where additional safety and security precautions are required to protect high risk patients.

Stainless Steel

## Features & Benefits:

- Designed with angled edges and internally tested to resist ligature attachment
- Resists forced entry with heavy duty 16 gauge steel powder coat white or 304 stainless steel #4
- Lockable solid door includes two keys
- Concealed, seamless stud rod hinge design mitigates risk
- Angled trim styles for fully recessed, semi-recessed and surface mounted cabinets

Fully Recessed
3/16" Flat Angled

Semi-Recessed
3" Angled

Surface-Mount
6-½ to 8" Angled

**Why are Ligature Resistant Products Important?**
Ligature resistant products make behavioral health environments safer. They are designed to physically protect patients from self-harm in psychiatric and mental health units.

# GUARDSMAN™ SERIES:
## Ligature Resistant Fire Extinguisher Cabinet

### Can Fire Extinguisher Cabinets be Locked?

Yes, per the exceptions listed in International Building Code 2024 IBC Section 906.8 Cabinets used to house portable fire extinguishers shall not be locked. Except where they are subject to malicious use or damage and are provided with a means of ready access and also in Group I-3 and mental health areas in Group I-2 occupancies provided that the staff has keys.
