PVDF high performance resin-based coatings provide superior protection in building performance. These finishes resist humidity, color change, chalk, gloss loss and chemicals. Fluoropolymer resins exhibit the greatest exterior durability, meet the requirements of AAMA 2605, and ensure a long lasting, durable finish.

Please select the code from the chart above, based on a 10 year or 20 year warranty. Include this code on the Aluminum Roof Hatch - RHDA submittal to order this feature. JL Industries can supply project specific color chips, upon request.

**Note:** This 10 or 20 year warranty only applies to products shipped to the 48 continental US states.
